

CME Session 14

Bone & Joint Committee

Wednesday, October 8, 09:45 – 11:15

Session Title

NM Sports, it's in the Game

Chairpersons

Lilit Schweiger (Munich, Germany)

Davina Mak (London, United Kingdom)

Programme

09:45 – 10:05 **James Bliss** (London, United Kingdom): The Orthopaedic Surgeon's Perspective

10:05 – 10:30 **Milko De Jonge** (Amsterdam, Netherlands): MSK Radiology in Sports Imaging

10:30 – 10:55 **Tim Van Den Wyngaert** (Antwerp, Belgium): SPECT CT: Spine to Knee

10:55 – 11:15 **Ranju Dhawan** (London, United Kingdom): SPECT CT: Foot and Ankle

Educational Objectives

1. Understand what the orthopaedic surgeon wants to know
2. Review of anatomy and pathology in other imaging modalities to enhance SPECT CT interpretation
3. Review of common pathologies seen in SPECT CT of sport injuries

Summary

This CME session provides an overview of the role of SPECT CT in sports injuries, with input from orthopaedic and radiology experts to enhance reporting of SPECT CT scans. Common pathologies seen in sports injuries from the spine to foot on SPECT CT studies will be discussed.

Key Words

Bone and Joint; SPECT CT; Sports imaging
