

Special Symposium Session 2

EANM Journals

Sunday, October 5, 15:00 – 16:30

Session Title

The Evolving World of Scientific Publishing

Chairpersons

Arturo Chiti (Milan, Italy)

Susanne Kossatz (Munich, Germany)

Riemer Slart (Groningen, Netherlands)

Programme

15:00 – 15:15 **Emma Bertran** (Amsterdam, Netherlands): Ethics and metrics in 2030

15:15 – 15:30 **Andrew Scott** (Melbourne, Australia): Publications, Journals and clinical excellence

15:30 – 15:45 **Alexandra Lazar** (Milan, Italy): Portrait of a perfect journal

15:45 – 16:30 Debate (chairpersons, speakers and attendees)

Educational Objectives

1. Understand the metrics used to assess scientific journals' impact
2. Acknowledge the link between scientific excellence and clinical practice
3. Address the importance of scientific publications for the younger scientists

Summary

The session's debate will focus on scientific publications' impact on the career of a scientist and how it can be fairly evaluated. Moreover, participants will discuss the main issues in ethics and metrics of scientific publications and how the excellence in clinical practice can be reflected in science.

Key Words

Scientific publications; Journal metrics; Young researchers
